Annual Stafford Loan Limits

The Federal Stafford Loan Annual Borrowing Limits listed below represent the most a student may borrow through the Federal Stafford Loan program in an award year (defined as the enrollment period spanning from the beginning of Fall to the end of the following Summer). These limits vary depending on the student's grade level and dependency status. In addition to the limits listed below, Federal Stafford Loan eligibility is also restricted by the student's Cost of Attendance, Financial Need, and Aggregate Limit calculations. In cases where the parent of a dependent student is denied approval from their lender to borrow from the Federal PLUS loan program, the dependent student may be allowed to borrow at independent student loan limits for their corresponding grade level.
