## Applied Ethics in Local Government

For City Clerks, interaction with the manager, mayor, and members of the city commission is a daily occurrence. These elected and appointed officials are bound by the State of Florida Ethics Law and local codes of ethics & conduct. As an integral part of the city's management team, City Clerks must also be aware of these laws to avoid ethical conflicts and be proactive to ensure ethics laws are followed. This two-hour webinar, facilitated by Dr. Bob Lee, Executive Director of the Florida Local Government Center of Excellence, and also a former city manager, will provide practical applications and useful strategies using real-world case studies of local governments recently involved in ethical violations.
