The main achievements and activities in the Internship have to be documented in a written report which has to be made available to the instructor by the date Master's theses have to be received by FAU's Graduate College. For a satisfying grade, graduate-level mathematical techniques must have been used successfully to meet an applied need in the institution facilitating the Internship. To decide if the application need has been met adequately, the instructor may seek feedback from the institution where the Internship has taken place.

10. INCOMPLETE GRADES
A grade of *I* (incomplete) will only be given under certain conditions and in accordance with the academic policies and regulations put forward in FAU's University Catalog. The student has to show exceptional circumstances why requirements cannot be met. A request for an incomplete grade has to be made in writing with supporting documentation, where appropriate.

Academic dishonesty is also destructive of the University community, which is grounded in a system of mutual trust and places high value on personal integrity and individual responsibility. Harsh penalties are associated with academic dishonesty. For more information, see University Regulation 4.001 at http://www.fau.edu/ctl/4.001_Code_of_Academic_Integrity.pdf.
