RE: Revised PROPOSAL

A handwritten signature in blue ink, appearing to read 'Robert W. Stackman Jr.', is written over the 'From:' and 'RE:' lines of the email header.

In light of COVID-19, the Graduate College is proposing the following temporary exception to the policy on admission requirements to graduate programs. Please give this some consideration and then we can discuss this further during an upcoming meeting of the Faculty Senate.

The Graduate College will temporarily waive the requirement of GRE and GMAT scores for all applicants seeking entry in Spring 2021, Summer 2021, and Fall 2021. If, **after consultation with their dean**, any Graduate Program Directors would like to have their program opt out of this temporary relaxation of the GRE/GMAT test requirement, then please write to the Graduate College (rstackma@fau.edu) as soon as possible, indicating the choice to opt out.”
