

VIII. Summary

Including cost share in a proposal triggers a series of requirements that the PI and University must meet. The Cost Share Overview Grid provides a summary of requirements for mandatory, voluntary committed and voluntary uncommitted cost share, as well as leveraging and project enhancements. (See Exhibit K)

The Cost Share Documentation Grid lists the documentation required at the proposal stage and post award stage for mandatory and voluntary committed cost share, contributed by both FAU and third parties. (See Exhibit L)

If you have questions concerning cost share at the proposal stage, please contact your Sponsored Programs representative. If you have any questions concerning cost share at the post award stage, contact your Research Accounting representative.
