Subject: Re: CS courses

Hello,

All of

- CIS 4214 Cyber-physical Systems Security
- COP 4623 Trustworthy AI
- CNT 4411 Data and Network Security
- CIS 4367 Operating Systems Security
- CDA 4321 Introduction to Cryptographic Engineering

as well as the title change for CNT 4403 look good -- thanks for checking. As said earlier, I'm delighted to see more activity in cybersecurity.

Best,
Rainer

Hi Rainer,

just a reminder. We would like to move forward in the approval process with the 6 CS courses (5 new courses + 1 title change). If you have any comments or objections, please let us know.

Thanks,
Mihaela
