Subject: Re: Changes: Bachelor of Science with Major in Chemistry-Biochemistry Program

Predrag,

The Department of Psychology supports the proposed change to the Biochemistry Program. We realize that this will increase the demand for some of our courses, especially Stats PSY3234 which is part of the core curriculum. However, we should be able to accommodate the increased demand, which is anticipated to be no more than about 25-30 students per semester.

Best,

Teresa
