Dear Dr. Krill:

The neuroscience faculty and I have considered your request for a change of course designation for Neurophysiology (PCB 4832C) and have reviewed the syllabus for this course. We see no conflicts or issues with the new course designation and we are impressed with the syllabus for the course. Accordingly, we endorse the course designation and the course syllabus. As a research course, it can add to undergraduate experiences at FAU.

Cordially,
