Subject: Add ENV3001C Environmental Science and Engineering 3 credits to the climate change concentration

CEGE believes that this new concentration in climate change is a great idea and fully supports your efforts to add ENV3001C to the approved electives. The course is offered all three semesters.

Good Afternoon Steven,
Geosciences is proposing a Climate Change focus in our BS Geosciences program (catalog attached). I am writing to seek your approval for us to use the following courses in the curriculum. They will be used as three of 22 elective courses (total 21 elective credits needed).

- ECO 2023 Microeconomic Principles
- ECO 3003 Economic Principles and Policies
- ECP 4302 Environmental Economics

A short email will be sufficient if you approve. It would be appreciated if you could reply by April 6th.

Thanks in advance.

Zhixiao,

Yes, that's fine with me.

Best,
Steve

Subject: Re: Request to include two INR courses in BS Geosciences: Climate Change focus

Zhixiao,

The Department of Political Science has no objection to the inclusion of INR 4054 (Comparative Environmental Politics) and INR 4350 (Global Environmental Politics and Policies) in the curriculum for the BS in Geosciences program.

Thanks for including our classes. Our faculty are very much supportive of this type of interdisciplinary structure.

Best,

Kevin
