<p>Please explain the requested change(s) and offer rationale below or on an attachment</p> <p>The health administration minor is divided into a health administration minor for Business majors and a health administration minor for non-business majors. To offer more comprehensive options to our students, we propose to add three current health administration electives to the list of courses a student can select to complete the minor. These three electives are:</p> <p>1) Long-term care administration HSA4222 - 3 credits. Prerequisites: HSA 3111 and HSA 4110 This course introduces the student to the changing structure of the long-term care system, the continuum of provider services, and the Balanced Budget Act and its consequences for reimbursement.</p> <p>2) Health care quality management HSA4383 - 3 credits. Prerequisites: HSA 3111 and HSA 4110 This course examines the efforts being introduced to improve the quality and efficiency of the healthcare system. Topics covered range from medical error reduction, quality improvements in medical records, and utilization review.</p> <p>3) Practice Management HSA4511 - 3 credits. Prerequisites: HSA 3111 and HSA 4110 This course provides an in-depth consideration of the fundamentals of managing a physician or other form of ambulatory care office. Issues covered include medical coding, physician credentialing, reimbursement, staff supervision, and practice building. PLEASE SEE ATTACHMENT</p>
