To: Carol Mills

Hi Carol,

Our faculty indeed indicated no conflict and is very supportive of this proposal. They did want me to pass along a syllabus from our course: PET 4404 Management Principles in Exercise Science and Health Promotion. We thought it may be worth considering as part of the proposal. The individual who teaches it has a master's in Exercise Science and also holds an MBA.

Anyway, no worries if you choose to include the course or not, we are supportive either way. Just wanted to pass along. Please let me know if you need anything else and all the best with the proposal, thank you for sharing it with us.

Take Care. --Mike Z.

Subject: Fwd: Sport Studies again

Good Afternoon Carol,

Upon reviewing the attached syllabi from Dr's. Petrich, Veenstra, and Wagner I am in full agreement that the course content steers clear of the Sports Business concepts and topical areas being taught in the College of Business. I support (as written in the attachments) the inclusion of the three aforementioned courses in the proposed Sports Studies Minor.

I would assume that we would be notified of any additional course proposals for the minor or changes to the three that are attached to this document.

Best wishes for success in this new endeavor.!

Jim

Subject: Sport Studies again

Hi Jim,

We finally have all our classes together and I'm sending you the minor proposal and three new courses: Sport Com, Sports Broadcasting, and Sport Politics. As you can see, each uses disciplinarily specific course content and materials.

Once you have a had a chance to look them over, we would love a final email of support. And, if down the road, you want to add a COB class, we are open to the collaboration!

Thanks!
Carol
