COURSE CATALOG INFORMATION:

This topics course explores the intersection of traditional painting and drawing practices. This experimental course is designed for intermediate students interested in building on existing painting and drawing experience while exploring special topics in the context of contemporary practice in painting and drawing. Objectives include exploring connections among varied studio practices and research practices while developing original studio work. May be repeated for credit.

Prerequisites: ART 1201C, ART 1300C, ART 2330C, ART 2500C, or Instructor Permission

COURSE DESCRIPTION & OBJECTIVES:

Systems of Perspective and Spatial Logic in Drawing- and Painting-Based Work

Topics in Intermediate Painting and Drawing explores the role of experimentation, exploration, and research, within the field of drawing and painting and within the visual arts in general. Our focus this semester will be on systems of perspective and spatial logic in drawing- and painting-based work. Throughout the course, students will improve and expand their drawing skills. At the same time, students will work to develop their comprehensive understanding of various systems of drawing-based perspective and their applications with both drawing-based media and painting-based media. Once a broad understanding is established, students will develop and implement a variety of individual, research-based strategies for constructing spatial logic in ambitious compositions. As students develop their individual interests in spatial systems, they will also deepen their understanding of formal concerns. Students will develop the technical and conceptual skills that are critical to the drawing and painting process, while also developing communication and critical thinking skills through research, writing, and critique. Learning activities will include drawing practice, painting practice, lectures, and class discussion, along with outside assignments and research. Students will develop their abilities to construct, to interpret, and to discuss their own compositions, their classmates' compositions, and masterworks. Studio work in and outside of class, group and individual critiques, artist talks, gallery visits, and other campus events will be among the activities in which all students are expected to participate.

COURSE OUTLINE:

The semester will be defined by five major projects. Each project will have a number of

individual steps, including writing, research, artmaking, and critique. You will work on each project in class and outside of class. The exact number of hours you spend will vary based on the project itself, as well as your level of ambition. You will begin each project with an initial brainstorming session. As your ideas become clear, you will develop and turn in a written project proposal. You will then continue your idea development and visual and scholarly research. These steps will build toward the creation of an intelligent, well-crafted, sophisticated drawing or series of drawings. The final phase of each project will be a written self-assessment of the project, which will be turned in on critique day.

Project Set 1: Perceptual Drawing and Natural Perspective

Sub-topics will include intuitive perspective; atmospheric perspective; diminishing range of color, value, and other detail; overlapping and foreshortening

Project Set 2: Geometric Perspective

Sub-topics will include hierarchy and multiple horizon lines; reverse perspective; isometric and oblique projection; axonometric projection

Project Set 3: Linear (Analytic) Perspective

Sub-topics will include historical contexts of linear perspective; one-point, two-point, and three-point perspective; limitations of linear perspective

Project Set 4: Spatial Systems, Logic, and Distortion

Sub-topics will include multi-point linear perspective; multiple and competing logics in pictorial space; mathematical intersections and manifold spaces; anamorphic and stereoscopic experiments

Project Set 5: Building Spaces and/as Metaphors

Sub-topics will include constructing real and imagined spaces; perceptual logic, hyperreal spaces, and the narrative potential of each; ambitious individual compositions and multi-part bodies of work; the Hero's Journey

REQUIRED & RECOMMENDED TEXTS

Required readings will include selected articles and chapter, which will be posted in Canvas. The following titles are also **required**:

The Art of Perspective: The Ultimate Guide for Artists in Every Medium, Phil Metzger

Walkscapes: Walking as an Aesthetic Practice, by Francesco Careri

Invisible Cities, Italo Calvino

Poetics of Space, Gaston Bachelard

You are encouraged to add to your personal library to support your work in this course. Here are some suggestions:

Art & Fear: Observations on the Perils (and Rewards) of Artmaking, by Bayles and Orland

Sketch Book for the Artist, by Sarah Simblet and other introductory survey texts *Vitamin D:*

New Perspectives in Drawing, by Kantor, Zabel, and Dexter

Vitamin D2, by Phaidon Publishing and other surveys of contemporary drawing *Art-*

Write: The Writing Guide for Visual Artists, by Vicki Krohn Amorose *How to Write*

About Contemporary Art, by Gilda Williams and other art writing guides *Art & Today*,

by Eleanor Heartney and other surveys of contemporary visual arts *The Annotated*

Mona Lisa, by Carol Strickland and other brief art history overviews *Drawing from Life: The Journal as Art*, by Jennifer New and other drawing surveys *An Illustrated Life*, by Danny Gregory and other surveys of sketchbook practice *How to Be an Explorer of the World*, by Keri Smith and other idea generators *Art/Work*, by Bhandari and Melber and other surveys of professional practices for artists *The Artist's Guide to Grant Writing*, by Gigi Rosenberg and other grant-writing guides *Arts & Numbers*, by Elaine Grogan Luttrull and other financial guides for creative professionals

Additional readings relating to the historical and contemporary practice of drawing, the creative process, and professional practices in the visual arts will be introduced throughout the term. Students will be expected to develop individual bibliographies of readings in the visual arts and related fields.

CURATING OUR ONLINE RESOURCES:

You are encouraged and expected to immerse yourself in our discipline via rigorous studio practice and scholarly reading. Surround yourself with artists and images that feed you and provoke you. In addition to the artists and other creative that you might follow on social media, please explore a wide array of scholarly arts resources. We will build our list of daily reads as a group in class, and the links available on my personal website are a good place to get started.

EVENTS & EXHIBITIONS:

We are fortunate to live in South Florida, which is home to a vibrant arts community. Throughout the semester, you will be invited to attend a variety of exhibits, lectures, and other events. These will be a mixture of on-campus and off-campus happenings, and they will cover a wide array of topics, across and beyond the studio arts. While many options will be presented, you will be required to attend a minimum of eight events and to report on a minimum of four of them. Visiting art collections, seeing special exhibitions, going to openings, and attending lectures are all extremely valuable aspects of a university education, as well as a creative life.

I will regularly announce specific events and exhibitions that I believe are worth seeing. You may also suggest additions to the mix of options. I encourage all of you to plan your time and your responsibilities carefully and to take advantage of as many of these opportunities as possible. If you do so, you will enrich yourselves as scholars and artists, and you will also have the opportunity to support your grade by fulfilling the requirement outlines above. When composing your report, keep in mind that you will deliver at least two short (approximately three-minute) slide talks to the class and that you will submit at least two concise (approximately one page) pieces of prose to me. In every case, your report should record the event details, as well as an extraordinarily brief description. You should then focus on sharing your scholarly analysis of the event or exhibition, along with a more personal reflection of what you found informative, surprising, or provocative, and how you will apply what you learned to your current and future work.

By composing four intelligent and elegant reports, you will meet the assigned requirement for the semester. If you make additional reports, you will move on to build your grade in the course by either making up for missed classes or accruing extra credit in the course. Excellent reporting will build your final grade by as much as two points added to your final grade per report beyond the assigned number of four. Four must be completed and submitted by the dates assigned in this syllabus, and additional reports must be submitted no later than the last day of class.

PERFORMANCE EXPECTATIONS:

For additional information regarding our university's academic policies and regulations, visit: <http://www.fau.edu/academic/registrar/FAUcatalog/academics.php>

ATTENDANCE:

This is an upper-division undergraduate course, and one of the goals of this is to prepare you for professional life. You should think of this class as a professional appointment—a job that requires you to arrive both promptly and consistently. Apropos of that, attendance will be carefully recorded daily. It is essential that you be present (in mind and body) and punctual. Coming to class late (10 minutes) three times is equivalent to 1 absence. You are permitted 2 absences without immediate consequences. A greater number may result in the lowering of your final grade by as many as three points (about one third of one letter grade) for each absence. You are responsible for the work that you miss when you are absent. Please take the initiative to get in touch with your classmates or with me to get up to speed when you are not here. Generally speaking, there are no excused absences. I realize that every student has other responsibilities or activities that sometimes interfere with his or her ability or desire to come to class. Please remember that your actions have consequences. Special exceptions, including religious observances and other exceptions that are officially recognized by the university, will be discussed and accommodated *in advance* and on an individual basis. Emergencies will be dealt with on an individual basis. Incomplete grades will be granted at the discretion of the professor, and only in the case of a grave individual emergency.

And this official university language:

Students are expected to attend all of their scheduled University classes and to satisfy all academic objectives as outlined by the instructor. The effect of absences upon grades is determined by the instructor, and the University reserves the right to deal at any time with individual cases of nonattendance.

Students are responsible for arranging to make up work missed because of legitimate class absence, such as illness, family emergencies, military obligation, court-imposed legal obligations or participation in University-approved activities. Examples of University-approved reasons for absences include participating on an athletic or scholastic team, musical and theatrical performances and debate activities. It is the student's responsibility to give the instructor notice prior to any anticipated absences and within a reasonable amount of time after an unanticipated absence, ordinarily by the next scheduled class meeting. Instructors must allow each student who is absent for a University-approved reason the opportunity to make up work missed without any reduction in the student's final course grade as a direct result of such absence.

PREPAREDNESS:

Preparedness is absolutely essential. Coming to class without the appropriate materials and/or without having completed assignments makes it difficult for you to be truly “present,” that is, ready to work and to contribute to the class. Please come to class each day with the appropriate materials, and having completed any out-of-class assignments. Doing so will ensure that you stay up-to-date with your responsibilities, and it will also contribute to the strength of your grade. While enrolled in studio classes, you may reserve one of the courtyard lockers for storage of your studio supplies. Use these lockers at your own discretion, with the awareness that they are neither perfectly secure nor perfectly weatherproof.

SPECIAL CIRCUMSTANCES:

If your life is influenced by a set of special circumstances that may affect your performance in this class, please let me know as soon as possible. If you anticipate missing class to fulfill duties as a representative of the university, if you are a student with a learning difference or a developmental difference, or if there is some other aspect of your life that may affect your ability to meet the expectations of this class, then please talk to me.

In compliance with the Americans with Disabilities Act Amendments Act (ADAAA), students who require reasonable accommodations due to a disability to properly execute coursework must register with Student Accessibility Services (SAS) and follow all SAS procedures. Contact information for SAS is as follows: SU 133 and 561-297-3880 in Boca Raton; LA 131 and 954-236-1222 in Davie; SR 111F and 561-799-8585 in Jupiter.

It is your responsibility to take the initiative to ensure your success in this class – and in life. Please be proactive, and remember that your graduation depends on your success in this course.

CLASS PARTICIPATION & PROFESSIONALISM:

Participation is very important in studio art classes. You are expected to participate fully, actively, and professionally in class each day. This means that you work efficiently and effectively both individually and within small groups. You are also encouraged to speak up and to share your thoughts in discussion and critique. Discussions and critiques will provide a forum in which you will have the opportunity to articulate your ideas, to collaborate with your colleagues, to appreciate multiple points of view, to understand and explore complex concepts, and to learn from one another. Professional and respectful conduct is expected from everyone at all times.

Phones may be used as research devices during class, but all other uses are absolutely prohibited during class. You may conduct online research and refer to image resources. You may also take photos of your own work and your workspace. Due to copyright and privacy concerns, you may not photograph other people, you may not photograph other people's work, and you may not make audio or video recordings without prior permission. You may not make or receive calls or texts, nor may you use social media during class. To avoid disruption, please silence your phones, put them in airplane mode, or turn them off. Build the practice of not taking them out during class. Each time your phone rings or vibrates in my class, your final grade will drop by two points. Each time I notice you texting or posting in class, your final grade will drop by two points. In fairness, if I violate any of these same rules during class, everyone's final grade will go up by two points.

THE STUDIO ENVIRONMENT:

The studio should be a place that is productive, challenging, safe, and enjoyable. It is important to develop working relationships with your classmates and to discuss and support their work, as well as your own. You are responsible for cleaning up after yourself at the end of each work session, and we will also work together at several points during the semester to maintain the studio. In general, please make sure that your work area is tidy, and please do not leave any items (especially food items) behind when you leave the studio. Studio maintenance is part of the art-making process, and your participation in this process is expected and appreciated.

You may take breaks as you need them during class, remembering that productive use of time is essential for staying caught up with your work and completing assignments on time. You may listen to music during times that are devoted to independent work. Make sure the volume is low

enough that you can still alert to your surroundings.

GROUP CRITIQUES & DISCUSSIONS:

There will be formal, announced critiques periodically throughout the semester, typically in conjunction with major projects. Occasionally there will be spontaneous discussions of projects in progress. Each student must demonstrate a sharpening of her or his critical looking, reading, and thinking processes through extensive, active participation in both the creative process and in the self- and group-evaluation process. One of our priorities in this course will be sharpening our abilities to look at, think about, and discuss a variety of topics in the arts in an informed, specific, and articulate way. Everyone in the class will be held to high professional standards during these discussions and critiques. Your enrollment in a university arts class indicates your interest in developing your creative practice, responding thoughtfully to constructive criticism, developing your critical thinking skills, and deepening your scholarly life.

GRADING:

Grades are earned based on the quality of your work (your technical ability, your mastery of individual concepts, and your knowledge of course content), your effort and improvement over the course of the semester, and your communication skills (oral and written skills, along with participation). You will be graded based on your successfully completed projects (studio, writing, and reading assignments), your involvement in critique and discussion (and your ability to think critically during these times), and your professionalism (including preparedness, promptness, attendance, and academic conduct). While the specific expectations and evaluation procedures for each project will be discussed when each is assigned, it is also wise to keep in mind the following:

A: Excellent work. This is work that is an exceptional solution to the problem. This work demonstrates strong effort (often more than was required by the assignment), and confidence and fluency with the technical and conceptual skills being assessed. This work demonstrates critical thinking; it shows that risks have been taken and that they have been taken successfully. The execution is consistent and aesthetic.

B: Above-average work. The work is strong, but not exceptional. It solves the problem presented in the assignment, but not necessarily in a creative or inventive way. The work is well executed, and it shows a solid effort.

C: Average work. This work is a somewhat minimal solution to the problem at hand. The work does not demonstrate that risks have been taken, nor does it suggest that the maker thought critically or creatively about the solution that has been devised. Execution may be inconsistent or reflect that the maker does not have a firm grasp of the skills necessary to complete the assignment.

D: Below-average work. This work indicates that a partial attempt has been made to solve the problem at hand and that the maker may have limited engagement with the assignment. Overall, the work fails to grasp the main objective of the assignment, demonstrates a lack of skill on the part of the maker, is poorly executed, and/or otherwise does not solve the problem as stated.

F: Failing. The work reflects little or no understanding of the problem at hand, little or no thought and/or effort, and/or a complete lack of skill. Work that shows neither awareness of nor attention to the project assignment may also earn a failing grade. Work that shows evidence of academic dishonesty will always earn a failing grade.

A- = 90 – 92 A = 93 – 100

B- = 80 – 82 B = 83 – 87 B+ = 88 – 90

C- = 70 – 72 C = 73 – 77 C+ = 78 – 80

D- = 60 – 62 D = 63 – 67 D+ = 68 – 70
F = 0 – 60

ASSIGNMENTS:

Contributions to class discussion and critique, completion of out-of-class assignments, and professional development of works in progress are part of each project grade.

Project Set 1: 12 points
Project Set 2: 12 points
Project Set 3: 12 points
Midterm Event Reports: 10 points
Participation & Professionalism (Midterm): 5 points
Project Set 4: 12 points
Project Set 5: 12 points
Final Event Reports: 10 points
Final Documentation: 10 points
Participation & Professionalism (Final): 5 points

Total: 100 points

Major assignments, along with performance expectations and evaluation metrics, will be discussed in detail in class and distributed in writing.

LATE WORK:

Prompt completion of projects is essential for academic and professional success. It is essential that all assignments be turned in on or before the due date. Late work will be accepted at my discretion. The minimum deduction for late work will be one full letter grade per day.

ACADEMIC HONOR:

We are all members of a scholarly academic community. This is a community of professionals, and our interactions with one another should be characterized by tolerance, respect, and understanding. Professional behavior will be expected of everyone in this class. Standards of professionalism will be applied to conduct in class, as well as to the completion of class assignments. All work should be original to the student who turns it in. All research should be used appropriately and documented properly. Any and all forms of unprofessional and/or dishonorable conduct will not be tolerated and may result in a failing grade in the class and/or the perpetrator's removal from the class. For example, any instance of cheating and/or plagiarism will result in an automatic F in this course.

And this official university language:

Students at Florida Atlantic University are expected to maintain the highest ethical standards. Academic dishonesty is considered a serious breach of these ethical standards, because it interferes with the university mission to provide a high quality education in which no student enjoys an unfair advantage over any other. Academic dishonesty is also destructive of the university community, which is grounded in a system of mutual trust and places high value on personal integrity and individual responsibility. Harsh penalties are associated with academic dishonesty. For more information, see [University Regulation 4.001](#).

GETTING IN TOUCH WITH ME:

You will find that, in order to get to my office, you must pass through an active classroom (VA 113). If you would like to see me while a class or a meeting is going on, please proceed quietly,

but confidently through the classroom. My office hours are listed at the top of this syllabus, and my teaching schedule is posted on my studio door. I am generally on campus and available to you throughout the day on Tuesdays and Thursdays (from morning until evening). I am also on campus on selected Mondays, and I am available to you at this time, especially if we make arrangements in advance. I am generally not on campus on Wednesdays and Fridays (I spend these days working in my studio in Jupiter). I check my e-mail about twice a day during the week, and almost never on weekends. I am committed to your learning and your progress, and I want each of you to do well, not only in this class, but in everything that you attempt. If you would like to speak to me, please stop by my studio during office hours, e-mail me, and/or schedule a meeting with me. When you email me about official business, please always do so from your official FAU e-mail address.

Write my Gmail address here:

INDIVIDUAL MEETINGS & CRITIQUES:

If you would like to discuss your progress in this class at any time during the semester, I am happy to do so. Just let me know that you would like to schedule a meeting, and we will sit down and arrange a time. It is important in this class (and in all classes) for each student to take individual responsibility for his or her performance. Please get into the habit of taking initiative when it comes to making sure that you succeed. I am happy to arrange meetings to discuss works in progress, project ideas, questions you may have about assignments and/or readings, and questions you may have about your grade, or, more importantly, your progress in the class. Please bring your work(s) in progress, as well as any other relevant materials, to these discussions.

CAMPUS RESOURCES:

Please be aware that our campus has resources available which can help you to succeed. For instance, our department's Digital Documentation Lab is a fully equipped and monitored space where you can document your studio projects. The library conducts instructional sessions in research skills. The counseling center offers workshops about everything from study skills, to time management, to test anxiety, in addition to one-on-one counseling. The center for writing excellence offers help for writers at all skill levels—these services will be of particular use to you as you work your way through the writing assignments in this course. The career center has resources available that will help you build your career both now and across your future. Make your tuition dollars work for you by taking advantage of everything that the university has to offer.

And this official University language:

Life as a university student can be challenging physically, mentally and emotionally. Students who find stress negatively affecting their ability to achieve academic or personal goals may wish to consider utilizing FAU's Counseling and Psychological Services (CAPS) Center. CAPS provides FAU students a range of services – individual counseling, support meetings, and psychiatric services, to name a few – offered to help improve and maintain emotional well-being. For more information, go to <http://www.fau.edu/counseling/>

PORTFOLIO REVIEW:

All studio art majors are required to participate in the Department of Visual Arts & Art History's portfolio review. The portfolio review normally takes place twice each year. The portfolio review process will provide participants with feedback about the progress of their studio work. More importantly, the review determines which degree options are open to you as studio major.

Students who pass the review are eligible to become BA majors or BFA majors, while students who do not pass are limited to the BA major. The BFA degree track allows you to specialize in an individual studio field (such as painting or graphic design), while the BA degree is a more generalized degree track. BFA degrees are generally considered more prestigious and rigorous than BA degrees in the visual arts. The current guidelines for portfolio review are available on the department website. The best way to begin preparing is by reviewing the guidelines and carefully preserving the projects you make in all of your studio classes. The right time to go through the review varies somewhat from student to student, but in general, you should participate in the review while you are in your last semester of foundations (1000- and 2000-level) courses.

ADDITIONAL SUPPLIES:

In addition to our studio supplies, it is also important that you bring a pen or pencil and a notebook or sketchbook to class each day. Even if you normally prefer to take your notes digitally, you need the physical tools with you. All the time. You should also have a folder (physical, digital, or both) for research and notes, assignment briefs, and work documentation. You will need to make sure you have the supplies necessary to keep your projects and art materials clean and to keep yourself and your residence clean. You might decide to keep paper towels or cotton rags on hand, along with one or more aprons, and lots of plastic bags or tarps. Finally, make sure that you have a calendar and a fully functional alarm clock. All of these are essential tools for effective time management and overall academic success.

WHERE TO GET YOUR SUPPLIES:

We are lucky to have a number of excellent art supply stores in South Florida, and most online retailers run great sales at the beginning of each semester. Please work to purchase your materials at professional art suppliers, and set aside time to visit one or more stores and browse supplies in person. You will learn a great deal about art materials this way. Other big-box stores sell art supplies. These stores might be convenient, but the drawing supplies they sell are generally lower in quality and/or more expensive.

Get to know these retailers:

Jerry's Art-o-Rama: www.jerrysartarama.com

Dick Blick Art Materials: www.dickblick.com

Utrecht Art Supplies: www.utrechtart.com

Pearl Art Supply: www.pearlpaint.com

Daniel Smith: www.daniel.smith.com

Cheap Joe's Art Stuff: www.cheapjoes.com

MARK YOUR CALENDAR:

Any revisions and/or updates to our course outline will be announced on Canvas.

For additional information regarding our university's academic calendar, visit:

<https://www.fau.edu/registrar/registration/ca>
