Hi Mike,

I greatly appreciate it. I will cross list these two courses in our certificate program. Thank you for your collaboration.

Best regards,

Pierre

Hi Pierre,

I am doing great. I am sorry for not responding earlier today.

One course (Exercise and the older adult - PET 4402) we don't offer anymore, and we also don't think that IDS Foundation of Health and Illness applies.

But we think it's great to offer Nutrition in Health and Exercise PET 3361 and Perspectives in Health and Wellness HSC 3102 as electives in your program. These courses are high-enrolled, and we may not always have room to include students under our caps, but we will do our best.

Anyway, please move forward with Nutrition in Health and Exercise PET 3361 and Perspectives in Health and Wellness HSC 3102. Thank you so much for including our courses, we are very happy to work together.

Take Care. --Mike Z.

Hi Mike,  
I hope this email finds you well. Any update on this yet?  
Best,  
Pierre

Hi Pierre,  
Thanks for considering our courses. I'm sure we'll be on board but let me just confer with our undergraduate coordinator and our faculty and hopefully I'll be back in touch shortly.

Talk Soon. --Mike Z.

Dear Pierre,

Thank you for your email. Good to hear from you. By way of this email I am connecting you with Drs. Mike Zourdos, and Robin Vallacher. They are Chairs of Exercise Science and Health Promotion, and Psychology, respectively. The first four course on the list are under Mike's preview and the last course is under Robin's.

Have a great weekend.

Regards,  
Evonne

**Subject:** Help needed in naming courses for gerontology certificate

Dear Evonne,

I hope this email finds you well. I am in the process of revising the gerontology certificate in our program. There are a few courses that I would like to cross list as electives. First, which one of the following courses you think would fit better a gerontology certificate? Second, do you know who from your college can give me permission to list the selected courses?

1. Exercise and the older adult - PET 4402
2. Nutrition in Health and Exercise PET 3361
3. Perspectives in Health and Wellness HSC 3102
4. IDS 2122 Foundation of Health and Illness IDS 2122
5. Human Memory EXP 4525

Best regards,

Pierre
