Hi Tarje, we support these proposed changes.

Best,
Hari

Subject: Honors College Data Science and Analytics concentration

Dear Hari and Mihaela,

We are currently in the process of updating our existing Data Science and Analytics concentration offered at the Wilkes Honors College. (See attached) These updates are primarily inspired by the recent changes implemented in your department. Additionally, we aim to ensure that we provide our students with a continuous, seamless path into the 4+1 pathway programs jointly offered with your college.

In order to get these updates approved, UUPC is requesting a statement from your college that we have consulted you and that you support these changes. If you could get back to me by the end of this week, I would appreciate it.

Sincerely,
Terje

Dr. Terje Hill, Ph.D.
Professor of Mathematics
Wilkes Honors College
