Hello Michael,

Thanks much for sharing this. Only one comment: the course in Asian Medical Systems is unlikely to be offered again, as our south Asian specialist retired. I recommend removing that course from your list in anthro.

Other than that, the Department of Anthropology is supportive of this initiative.

Best,
Michael Harris
Chair, Anthropology

Dear Michael,

I indeed met with the chair. We have no objection. My recommendation is to encourage the students to take HSA3104 or HSA3111. We judge that these two courses will be more helpful to your students.

Thanks,

Pierre

Hi Michael,

Our undergraduate programs committee reviewed the proposal and they indicated that they are in favor of the inclusion of the four Psychology courses you listed in the Health Humanities minor. I am thus happy to support this new minor. Please let me know if there is anything else I can do to help with the approvals process.

Sincerely,
Alan

Hi Michael,

The proposal looks great. I agree that it may be a very effective way of getting Science majors into more AL courses.

I have no question or concerns; Sociology supports moving forward with the minor.
