Hi Rachel,

I reached out to the math chair again and received this supportive response.

Bill

Hi Bill,

Please go ahead. Here is a formal statement if needed:

Adding MGF 1130 to the catalog of Wilkes Honor College does not adversely impact our department. We don't have any concerns.

Thanks for checking with us.

Yuan

Hi Yuan,

I'm told by our curriculum committee that we are proposing MGF 1130 instead of 1131. The reason is that we need a core Group A math course. I assume this still doesn't adversely impact your department, but I wanted to let you know.

Thanks,

Bill
