RE: Honors in Biological Sciences (Name Change of the existing Program)
Honors in Biological Sciences Research track (new)

As per FAU's Honors Curriculum Manual, the change to the name of the existing Honors in Biological Sciences (with a research thesis as a capstone project) program as well as the proposal to add a second Honors in Biological Sciences (with an alternative non-thesis research capstone project) were submitted to the College of Science's Undergraduate Programs Committee. The proposals were discussed by the University Honors Council on 13 November 2017. The UHC made some recommendations, which were incorporated and resubmitted. The members of the UHC voted electronically to approve these two proposals.

We are now asking the UUPC to consider these two proposals and give them approval for inclusion in the catalog. Thank you.
