	Department: CEGE College: COE&CS	
<b>Program Name</b> <b>BS Civil Engineering and BS Environmental Engineering</b>	<input type="checkbox"/> New Program <input checked="" type="checkbox"/> Change Program	<b>Effective Date (TERM &amp; YEAR)</b> <b>FALL 2018</b>
<p><b>Please explain the requested change(s) and offer rationale below or on an attachment</b></p> <p>The Department of Civil, Environmental &amp; Geomatics Engineering proposes changes to the lower division basic math and science requirements to add upper division core flexibility in both BSCV and BSEV programs. These changes should reduce bottlenecks, increase quality and preparation for licensing exams, maximize flexibility and simplify advising by increasing the number of technical electives and restricted electives. This is expected to improve degree productivity. As an added benefit, faculty have more flexibility to offer technical elective courses more often. In addition, the accreditation body has changed the student outcomes for the program, so we need to revise to be compliant. More details are provided in the attachments.</p>
