Memorandum

TO: Dr. Clifford Brown / UPC
FROM: Dr. Michael Hofmann
DATE: March 5, 2013
SUBJECT: Multimedia Journalism – Summary of Requested Changes

To restart our past growth in the number of MMSJ majors and to again regularly increase the overall headcount enrollment in our MMSJ sequence, the five members of the full-time MMSJ faculty unanimously decided to request the following curricular changes:

1. Change the title for MMC 1540 to "Introduction to Multimedia Studies"

There is strong evidence that, due to the wording of the current MMC 1540 title, many MMS pre-majors have not been able to identify the course as the MMS introductory course. Moreover, the emphasis on Multimedia Studies in the new title provides additional guidance toward the MMSJ and MMSFVNM sequences. Since the syllabi for both MMC 1540 sections provide an integrated introduction to both Journalism and Film/Video/New Media, first year students receive the information they need to reflect on their preferences before proceeding either in the second semester to FIL 2000 Film Appreciation or in the third semester to JOU 3101 News and News Reporting (which will be moved up into the Pre-Major Section of the College Program Guide, see below # 2). To meet these student needs, MMC 1540 Introduction to Multimedia Studies has to be regularly offered with two sections in the Fall and Spring semesters and with one section in the Summer semester. Each section will provide 64 seats. These 320 seats per academic year can thus generate 960 FTEs.

2. Remove the "Journalism Skills Test" from the list of prerequisites for JOU 3101 News and News Reporting and move the course to the 3rd semester in the Pre-Multimedia Studies section of the 4-Year College Program Guide

This curricular change offers potential MMSJ majors the opportunity to learn about the basic skills of the journalism profession without first having to pass the entrance test. While the introduction of the test has achieved its goal of improving the quality of student performance in JOU 3101, there also has been considerable evidence that many qualified students do not want to postpone the decision about their major until they take the test before enrolling in JOU 3101 in the fifth semester - and thus select a different major without even trying out the MMSJ curriculum.

Secondly, this curricular change offers especially Communication Studies and English majors the opportunity to acquire basic journalism skills without any other prerequisite than fulfilling the general College Writing requirement of ENC 1101 and ENC 1102. Provided that they pass JOU 3101 with a grade of C or better, these majors gain thus also access to JOU 4311 Feature and Freelance Writing, JOU 4314 Environmental

Journalism, and PUR 4411 Public and Community Relations. Hence, such a changed MMSJ curriculum can also contribute these four courses (12 credits) under "Category II" of the English Department's proposed "Undergraduate Certificate in Professional and Technical Writing."

To provide this service to both MMS pre-majors and Communication Studies / English majors, JOU 3101 News and News Reporting has to be regularly offered with (at least) two sections in the Fall and Spring semesters and (at least) one section in the Summer semester. Each section will provide 27 seats. These (at least) 135 seats per academic year can thus generate (at least) 405 FTEs.

3. Move up JOU 4181 Coverage of Public Affairs to the 5th semester in the 4-Year College Program Guide and require passing the "Journalism Skills Test" only at this point as one of the prerequisites for JOU 4181

This curricular change allows for a smooth flow of MMSJ majors through the MMSJ curriculum's "Performance and Production" section, which requires four courses that have "to be taken in order" before reaching the "Disciplinary Core" capstone course in the final semester. After completing JOU 3101 News and News Reporting in the 3rd semester, students now have the 4th semester to pass the "Journalism Skills Test" before enrolling in JOU 4181 Coverage of Public Affairs in the 5th semester of the 4-Year College Program Guide. MMSJ majors can then proceed to RTV 4301 Broadcast Journalism in the 6th semester, JOU 4342 Multimedia Journalism in the 7th semester, and the capstone course VIC 4943 Multimedia Practicum in the 8th semester.

Like JOU 3101, JOU 4181 is based on investigative reporting projects which necessitate a cap of 27 students. The lab courses RTV 4301, JOU 4342, and VIC 4943 all demand a cap of 18 students. Bottlenecks in this flow can be avoided by adjusting the number of sections offered for each of these consecutive courses / labs on the basis of the number necessary to absorb demand in the preceding ones.
